

8FIX

**STORM
PROOF
GUARANTEE**

GSPC unequivocally believe that roof tile performance should be relied upon by the manufacturer's customer. Envirotiles do just that. They are fully guaranteed to perform against severe UK wind loads in any designated zonal area within the UK and we offer a free replacement service for dislodged roof tiles caused by gale force winds up to 65mph (subject to our Terms & Conditions). The **Envirotile 8 Fix** proven performance guarantee is in addition to our standard 25 year product guarantee.

N.B. Did you know that just ONE articulated lorry load of 40 Pallets will cover between 20-26 average sized roofs on new build houses?

**Unique Interlocking
Fixing System**

- for unrivalled performance
and quick installation!
